Plant and Soil **153**: 309–312, 1993.

Contents Volume 153 (1993)

Research articles

A method for counting roots observed in minirhizotrons and their theoretical conversion to root length density 1
S.T. Buckland, C.D. Campbell, L.A. Mackie-Dawon, G.W. Horgan, E.I. Duff

Does hydraulic lift exist in shallow-rooted species? A quantitative examination with a half-shrub *Gutierrezia sarothrae* 11
C. Wan, R.E. Sosebee, B.L. McMichael

Growth and ion accumulation of two rapid-cycling *Brassica* species differing in salt tolerance 19
T. He, G.R. Cramer

Plant symbiotic mutants as a tool to analyse nitrogen nutrition and yield relationship in field-grown peas (*Pisum sativum* L.) 33
M. Sagan, B. Ney, G. Duc

Re-sorption of organic compounds by roots of *Zea mays* L. and its consequences in the rhizosphere, II: Experimental and model evidence for simultaneous exudation and re-sorption of soluble C compounds 47
D.L. Jones, P.R. Darrah

Low molecular weight humic substances stimulate H^+-ATPase activity of plasma membrane vesicles isolated from oat (*Avena sativa* L.) roots 61
Z. Varanini, R. Pinton, M.G. de Biasi, S. Astolfi, A. Maggioni

Photoperiod and root-zone temperature: Interacting effects on growth and mineral nutrients of maize 71
A. Mozafar, P. Schreiber, J.J. Oertli

Cadmium distribution in maize inbred lines: Effects of pH and level of Cd supply 79
P.J. Florijn, M.L. van Beusichem

Frankia* in the rhizosphere of nonhost plants: A comparison with root-associated N_2-fixing *Enterobacter, Klebsiella* and *Pseudomonas 85
R. Rönkkö, A. Smolander, E.-L. Nurmiaho-Lassila, K. Haahtela

Production of vitamins by *Azospirillum brasilense* in chemically-defined media 97
B. Rodelas, V. Salmerón, M.V. Martinez-Toledo, J. González-López

Effects of tree clumps on soil characteristics in a humid savanna of West Africa (Lamto, Côte d'Ivoire) 103
P. Mordelet, L. Abbadie, J.-C. Menaut

Reversibility of phosphorus sorption by ferruginous nodules 113
H. Tiessen, M.K. Abekoe, I.H. Salcedo, E. Owusu-Bennoah

Maize nodal root ramification: Absence of dormant primorida, root classification using histological parameters and consequences on sap conduction 125
M.-O. Jordan, J. Harada, C. Bruchou, K. Yamazaki

Short communications

Effect of abscisic acid application on root isoflavonoid concentration and nodulation of wild-type and nodulation-mutant soybean plants 145
M.-J. Cho, J.E. Harper

Does carbon isotope discrimination correlate with biological nitrogen fixation 151
J.D. Knight, F. Verhees, C. van Kessel, A.E. Slinkard

*

Research articles

The ability of 16 ectomycorrhizal fungi to increase growth and phosphorus uptake of *Eucalyptus globulus* and *E. diversicolor* F. Muell 155
T.I. Burgess, N. Malajczuk, T.S. Grove

Effects of plant growth regulators on acetylene-reducing associations between *Azospirillum brasilense* and wheat 165
S. Sriskandarajah, I.R. Kennedy, D. Yu, Y.T. Tchan

Mulching effect of plant residues with chemically contrasting compositions on maize growth and nutrients accumulation 179
G. Tian, B.T. Kang, L. Brussaard

Leaf responses to soil water deficits: Comparative sensitivity of leaf expansion rate and leaf conductance in field-grown sunflower *Helianthus annuus* L.) 189
V.O. Sadras, F.J. Villalobos, E. Fereres, D.W. Wolfe

Using a chelate-buffered nutrient solution to establish the critical solution activity of MN^{2+} required by barley (*Hordeum vulgare* L.) 195
M.J. Webb, W.A. Norvell, R.M. Welch, R.D. Graham

Interaction between zinc nutritional status of cereals and *Rhizoctonia* root rot severity, I: Field observations 207
P. Thongbai, R.J. Hannam, R.D. Graham, M.J. Webb

Interaction between zinc nutritional status of cereals and *Rhizoctonia* root rot severity, II: Effect of Zn on disease severity of wheat under controlled conditions 215
P. Thongbai, R.D. Graham, S.M. Neate, M.J. Webb

Effects of the root-lesion nematode *Pratylenchus vulnus* and the vesicular-arbuscular mycorrhizal fungus *Glomus mosseae* on the growth of three plum rootstocks 223
A. Camprubi, J. Pinochet, C. Calvet, V. Estaun

Nitrogen uptake in needles of Scots pine (*Pinus sylvestris* L.) when exposed to gaseous ammonia and ammonium fertilizer in the soil 231
M. Pérez-Soba, L.J.M. van der Eerden

Sensitivity to H- and Al ions limiting growth and distribution of the woodland grass *Bromus benekenii* 243
M.E. Andersson, J. Brunet

Iron-deficiency chlorosis in Scots pine growing on acid soils 255
H.F.G. van Dijk, H.F. Bienfait

Variation in the salinity tolerance of strawberry clover (*Trifolium fragiferum* L.) 265
M.D. Rumbaugh, B.M. Pendery, D.W. James

Using a fine root extraction device to quantify small diameter corn roots (≥ 0.025 mm) in field soils 273
E. Pallant, R.A. Holmgren, G.E. Schuler, K.L. Mccracken, B. Drbal

Lithium metaborate fusion for silicon, calcium, magnesium, and potassium analysis of wild rice 281
M.L. Meyer, P.R. Bloom

Grain protein and grain yield of tritordeum in comparison to wheat and triticale 287
M. Gallardo, E. Fereres

Natural abundance of ^{15}N in tropical plants with emphasis on tree legumes 295
T. Yoneyama, T. Muraoka, T. Murakami, N. Boonkerd
